

Incident Report - INC-2025-0042

Incident date: 2025-07-14

Reported by: J. Martinez

Location: Riverside Facility, Bay 4

Classification: Near-miss

Description:

A forklift operator failed to observe a stop marking on the floor and entered the pedestrian crossing zone while a maintenance technician was present. No contact occurred. The technician was alerted by a colleague. The area has been re-marked with high-visibility paint and a warning buzzer has been installed on the forklift approach lane.

Corrective actions:

1. Re-mark floor crossing zone (completed 2025-07-15).
2. Install audible alert on forklift lane approach (completed 2025-07-18).
3. Mandatory forklift safety refresher training for all operators (due 2025-08-01).
4. Review site traffic management plan (due 2025-08-15).
