Content

This handbook defines the quality management system for ACME Corp operations. It is issued under the authority of the VP of Engineering and is mandatory for all engineering, manufacturing, and procurement personnel.

Section 1 - Quality Policy:

ACME Corp is committed to delivering products that consistently meet or exceed customer requirements. The QMS is certified to ISO 9001:2015.

Section 2 - Non-Conformance Procedure:

Any non-conforming product must be tagged with a red NCR label and quarantined in the designated hold area. Complete NCR form QM-401 within 24 hours of discovery. The quality manager must approve all dispositions (rework, scrap, or use-as-is).

Section 3 - Document Control:

Controlled documents are identified by a revision number and an effective date. Uncontrolled copies are marked UNCONTROLLED. Verify that you hold the current revision before using any controlled document for work.
